

MISSION STATEMENT

To provide time enduring, quality supported employment services to people with disabilities.

The objectives of the Community Employment Services are:

- a. To enable people with disabilities to move from traditional, segregated day programs and workshops into competitive, community-based employment.
- b. To enable people with disabilities who are not presently involved in vocational services or those just graduated from school to gain competitive employment.
- c. To enhance the quality of life of the people we serve through competitive, socially validated and integrated employment.
- d. To increase awareness in the community of the employment potential of people with disabilities through our community-based supported employment efforts.
